

Mateo Rada Arias

SOFTWARE SYSTEM ENGINEER | STUDENT

+57 3205785410

mateora73@gmail.com

Cali, Colombia

Young 20 year old student with passion for software development and problem solving through technology. Enthusiastic about full-stack development to generate quality solutions and have a positive impact on society and industry. Committed to continuous improvement and team leadership towards collaboration and efficiency. Interested in the most relevant industry technologies such as Web3, AI and Blockchain as well as current web development technologies such as Front-End, Back-End and traditional databases (relational and non-relational).

EDUCATION

Software System Engineering
ICESI University 2020-2024

High School
Teresita Montes Educational Institution 2019

EXPERIENCE

Integration project 1
2022 (4 months)

The purpose of the project was the actual development of a website for competitive programming of the Icesi University. An MVP was developed with React, Node and NextJS.
